

CAREERS TEAM

NEWSLETTER - 2023/2024 TERM 5. ISSUE 16

Hello Saint George's Community

Hello everyone and welcome to the term 5 2023/2024 edition of the Careers Newsletter.

Once again we hope this edition brings you up to date with what has and will be taking place in the world of careers, as well as our regular features such as, "University - what's on?", "It's Your Future - Plan it !!!"

As usual we have provided lots of information and resources to help students / teaching staff and to help you support your child with their career exploration. In this edition we're excited to bring you a wealth of work experience opportunities that are available or coming up soon.

If you have any other questions regarding Careers, please feel free to email: hallama@saintgeorgescofe.kent.sch.uk

We hope you find the various links in this newsletter useful, whatever stage you are at regarding your career exploration.

Many thanks as always for your support.
The Careers Team

Careers Team: Ms C Jordan (Careers Lead), Miss M Pye (Sixth Form), Mrs S Lane (Assistant Head Teacher), Miss A Cocks (Year 11 and 10), Mrs A Hallam (Careers Coordinator)

GATSBY CAREER BENCHMARKS

	A stable careers programme	Every school and college should have an embedded programme of career education and guidance that is known and understood by students, parents, teachers, <u>governors</u> and employers.
	Learning from career and labour market information	Every student, and their parents, should have access to good quality information about future study options and labour market opportunities. They will need the support of an informed adviser to make best use of available information.
	Addressing the needs of each student	Students have different career guidance needs at different stages. Opportunities for advice and support need to be tailored to the needs of each student. A school's careers programme should embed equality and diversity considerations throughout
	Linking curriculum learning to careers	All teachers should link curriculum learning with careers. STEM subject teachers should highlight the relevance of STEM subjects for a wide range of future career paths.
	Encounters with employers and employees	Every student should have multiple opportunities to learn from employers about work, employment and the skills that are valued in the workplace. This can be through a range of enrichment activities including visiting speakers, mentoring and enterprise schemes.
	Experiences of workplaces	Every student should have first-hand experiences of the workplace through work visits, work shadowing and/or work experience to help their exploration of career opportunities and expand their networks.
	Encounters with further and higher education	All students should understand the full range of learning opportunities that are available to them. This includes both academic and vocational routes and learning in schools, colleges, universities and in the workplace.
	Personal guidance	Every student should have opportunities for guidance interviews with a career adviser, who could be internal (a member of school staff) or external, provided they are trained to an appropriate level. These should be available whenever significant study or career choices are being made.

The Gatsby Benchmarks are a framework of 8 guidelines that define the best careers provision in secondary schools.

Please use the key in the table above to see where we have mapped activities against the Gatsby Benchmarks.

[Learn more about the Gatsby Benchmarks](#)

Careers Team: Ms C Jordan (Careers Lead), Miss M Pye (Sixth Form), Mrs S Lane (Assistant Head Teacher), Miss A Cocks (Year 11 and 10), Mrs A Hallam (Careers Coordinator)

Flourish in
the Future

HIGHLIGHTS: LOOKING BACK!

8

Personal Guidance Meetings

Year 10 students have now attended or been invited to their one-to-one careers guidance meetings with our Careers Advisor. These personalised sessions are designed to provide tailored advice and support, helping each student to explore potential career paths, understand the necessary qualifications, and develop a plan to achieve their professional goals. By engaging in these meetings, students gain valuable insights and resources that aid in their decision-making process for further education and career development. The individualised attention ensures that each student's unique interests and aspirations are considered, fostering a clearer, more informed approach to their future endeavors.

6

Year 10 and 12 Work Experience

The careers team has been diligently processing the work experience forms for Year 10 and Year 12 students, ensuring that outstanding placements have been secured. Well done to everyone involved in this effort! If you have returned your form but have not yet received a confirmation email, it is likely because we are awaiting additional information either from you or your prospective employer. Please do check with Mrs Hallam if you have any questions.

1

Year 11 Post-16 Applications

To further support our Year 11 students, we have been hosting a series of workshops aimed at ensuring all students have made their post-16 applications and have viable backup options in place. These workshops provide comprehensive guidance on navigating the application process, exploring various educational and vocational pathways, and understanding the importance of having alternative plans. Additionally, personalised support has been available for those who need extra assistance, ensuring that every student is well-prepared and confident about their future endeavours. The proactive approach taken in these workshops underscores our commitment to the success and well-being of our students as they transition to the next stage of their education.

4

5

Financial Education

Students in Year 7 and 12 attended their Financial Education lessons with Adams & Bowles Wealth Management Ltd.

Miss Owen from the Education team taught Year 7s about shopping for families and Year 12s about mortgages, pensions, setting financial goals and tax.

Students told us they found it useful to learn how little changes can make a big impact on saving money in the long term and how they enjoyed learning about taxes and their impact on wages.

Students from our primary phase were also invited to attend a workshop with Miss Owen. Feedback has been extremely positive, and one parent told us that her child came home absolutely buzzing about it, so much so that he asked her to find the shopping list that had been used during the lesson. It is never too young to learn about money and budgeting!

4

5

Construction Youth Trust, Pythagorean Theorem

Construction Youth Trust met with Year 9 students to explore the practical applications of mathematics in the construction industry, with a special focus on the Pythagorean theorem. This engaging session demonstrated how mathematical concepts are foundational to construction, from calculating distances and angles to ensuring structural integrity. By linking classroom learning with real-world scenarios, the event inspired students to appreciate the relevance of mathematics in everyday life and potential career paths. Students engaged in interactive activities and discussions, gaining a deeper understanding of how Pythagoras' theorem is used by professionals to solve complex problems in building and design.

Careers Team: Ms C Jordan (Careers Lead), Miss M Pye (Sixth Form), Mrs S Lane (Assistant Head Teacher), Miss A Cocks (Year 11 and 10), Mrs A Hallam (Careers Coordinator)

UNIVERSITY / COLLEGE - WHAT'S ON

Canterbury Christ Church University Answers Day!

Don't miss our Answers Days - like an open day, but better! Do you have questions about choosing a course, the application process or what university life is like? Don't miss your chance to have your questions answered at our summer Answers Days on:

- [Sunday 9 June in Canterbury](#)
- [Saturday 22 June in Medway](#)

Why visit an Answers Day?

At our Answers Day you can experience everything you would normally get from an open day with an added focus on providing you with answers to the questions most important to your personal journey.

You'll have the chance to:

- speak to our staff and students
- see where you could be living
- take a tour of the University
- attend talks about the subject you're interested in
- see the local area
- and get the answers to the questions that you have about going to university

Book Now - <https://www.canterbury.ac.uk/study-here/applying/visit-us>

University of Leicester - Subject Insight Day Now Open for Individual Bookings!

- When: Friday 28th June 2024, arrival on campus from 09:15am. Departure from 2:45pm
- Where: University of Leicester Main Campus, LE1 7RH.
- Why attend: Students will have the opportunity to explore different subject areas, be taught by current University academics and hear from current University of Leicester students. They will also have the opportunity to go on a campus tour and attend some optional IAG sessions at the end of the event. More information about the academic sessions on offer can be found on [this website](#).

UNIVERSITY OF
LEICESTER

Join our upcoming Open Day and learn about what London Metropolitan University has to offer!

Our Aldgate Campus Open Day on Friday 28 June, 11am to 3pm. It is designed specifically for those interested in our School of Art, Architecture and Design, and showcases the variety of amazing facilities our students have at their disposal, such as our unique range of specialist workshops and equipment. All of this in a campus in the heart of the East End, a stone's throw from a variety of galleries and landmarks! For a full list of courses at Aldgate, see the booking page [HERE](#).

Our Holloway Campus Open Day on Friday 05 July, 11am to 3pm. It is specifically curated for those interested in all of our other schools. So whether you're eager to see our cutting-edge Superlab (one of the most advanced in Europe!), our state-of-the-art newsrooms, or any of the other exciting facilities that our students love, this is the perfect opportunity! For a full list of courses at Holloway, see the booking page [HERE](#).

APPRENTICESHIPS

BT Group Apprenticeships

BT Group is the global powerhouse behind EE, BT, Plusnet, and Openreach.

Millions of people rely on us every day to help them live their lives, power their businesses, and keep their public services running. We connect friends to family, clients to colleagues, people to possibilities. We keep the wheels of business spinning, and the emergency services responding. And we use the power of technology to help solve big challenges, like climate change and cyber security.

From day one, you'll have a voice at BT. You'll get stuck in to tough challenges, pitch in with ideas, make things happen. You won't be alone: we'll be there with help and support, learning and development. You'll make great friends, discover new talents, and feel part of something exhilarating.

View all vacancies [HERE](#).

Southeastern Railway

Southeastern is a great place to further your career, you will find a rich diversity and a dynamic role in a fast-paced environment. By joining Southeastern, you'll be working for one of Britain's busiest train operators, serving London, Kent and parts of East Sussex.

We are constantly evolving to ensure an excellent passenger service and an inclusive workforce. We are an equal opportunities employer with priorities that include increasing safety, developing our employees and supporting local communities.

TESCO STRONGER START APPRENTICESHIPS

Tesco have recently announced the launch of their new Stronger Starts Retail Apprenticeship programme, as part of their commitment to help young people achieve a stronger start in life.

Watch this exclusive webinar with the Early Careers team from Tesco to learn more about their Stronger Starts Retail Apprenticeship programme, opening for applications in June 2024.

This webinar includes an overview of the retail apprenticeship programme, and also explores why Tesco are committed to helping young people to get a strong start in life.

Discover practical examples and first-hand advice on the application process, how to prepare and what support is provided.

What are the entry requirements?

These opportunities are part of Tesco's Stronger Starts campaign to support the communities in which it operates.

Thousands of school children across the UK are already benefitting from a £5m grants programme that helps schools that lack resources to pay for nutritious food for pupils and play equipment to keep children active.

Stronger Starts is one of the few apprenticeship programmes that doesn't require any qualifications or experience as entry requirements.

After completing the programme, apprentices gain a Level 2 National Standard in Retail, which is the equivalent of 5 GCSE passes.

The apprenticeship is delivered by Tesco's partner, Lifetime Training, and will take a minimum of 12 months to complete

What's involved in the programme?

The programme will include a blend of learning activities and hands-on experience on the shop floor.

Those joining without a GCSE pass or equivalent in maths and English will gain these during the programme.

The transition from education to the world of work can be daunting, so Tesco have a network of people to support apprentices every step of the way, including expert 1-1 pastoral support from the Prince's Trust, a dedicated Lifetime apprenticeship coach as well as the store teams.

- Salary: minimum starting salary £22,501.44 (36 hours per week)
- Holiday allowance: 20 days pro rata plus a personal day – rising to 22 days after 12 months (plus Bank holiday)
- What you need: No qualification required
- Start date: 23rd September 2024

Careers Team: Ms C Jordan (Careers Lead), Miss M Pye (Sixth Form), Mrs S Lane (Assistant Head Teacher), Miss A Cocks (Year 11 and 10), Mrs A Hallam (Careers Coordinator)

Unifrog Course - Mathematics: the size of infinity

Did you know... right now 1,626 students are taking our short course 'Mathematics: the size of infinity', written and presented by one of Unifrog's founders Coralie Colmez.

Coralie graduated with a first-class degree and the Ryan Prize in Higher Mathematics from the University of Cambridge. She also worked on Carol Vorderman's task force to investigate the state of mathematics education in the UK, before founding Unifrog with Alex in 2013.

This course is aimed at Y11–13 students to get a taste of what studying mathematics at university would be like, and develop their independent study skills. No prior advanced maths knowledge is needed to take this course... only the curiosity to learn something new!

Preview the course [HERE](#).

Review the subject guide: Mathematics [HERE](#).

The Sutton Trust

The Sutton Trust offers a free-to-attend Pathways to Law summer schools to state school students in Year 12.

We support young people from less advantaged backgrounds to access leading universities and careers. In partnership with universities and employers, we run engaging programmes that give students practical advice and leave them feeling inspired and more confident about their future.

Our programmes are completely free to attend. All costs - including travel, accommodation, food and activities - are paid for by the Trust and our partners.

Get Into Medicine FREE E-Learning

Being in the midst of exam season and with this academic year rapidly coming to an end, we recognise the challenge of attending any upcoming conferences. We want your students to focus on their studies and achieve the grades they deserve. Which is why we are thrilled to introduce our new Get Into Medicine E-Learning, available for FREE for aspiring medics who are applying this year and may have missed out before.

With the May bank holiday weekend coming up, this is a perfect opportunity for your students to sign up to this E-Learning and receive vital medical application support and structure they will need in the upcoming application cycle.

Students in years 12/S5/NI13 or year 13/S6/NI14 re-application students can register for the FREE Get Into Medicine E-Learning with the coupon code '**getinto24**' here:

<https://wexlibrary.yourmedicfamily.org/courses/the-get-into-medicine-conference-e-learning/>

The FREE Get Into Medicine E-Learning provides a comprehensive overview of the application process, including the latest UCAT, Personal Statement, and reapplication updates for the 2025 entry. Dr. Kennedy and I will delve into each step of the medical application journey, covering areas like:

- Tactically choosing universities
- Personal statements
- UCAT Entrance Exam
- Medical school interview skills
- Medical Leadership Programmes
- Awards Programmes
- Extracurricular activities
- Work experience
- Building a CV
- Reapplication into Medicine
- Applying for scholarships

The Get Into Medicine E-Learning is only available until the **31st May**, so use the coupon code '**getinto24**' and make sure to take advantage of this opportunity to get ahead of your medical school application journey!

Virtual Routes into STEM Course

The Routes into STEM Virtual course allows students Yr9 & 10 and S3 & S4 to recognise the variety of opportunities available to them after taking their GCSEs or Nat 5 and Highers, it will provide them access to key information on different pathways; college, university and STEM career. Diverse live interactive sessions will take place throughout the duration of the course, these will be available during school holidays and after school. Students will be able to listen and ask questions to a variety of STEM professionals and student ambassadors. Students will also choose from a range of exciting projects, developed by our University and Industry partners, to work on during the course.

Who is it for?

- Students in Year 9 or 10 or S3 or S4 who are interested in exploring a career in STEM (Science, Technology, Engineering and Maths).
- All you need is an interest in STEM and curiosity about the future and is open to all academic abilities.

What is involved?

- Approximately 20 hours of study virtually
- Exploring different Routes into a STEM career including College Courses, University Courses, Apprenticeships and learning from industry what is involved in a STEM career as well as enhancing your skills.
- The course includes live interactive sessions throughout the duration, allowing you to listen and ask questions to STEM students and professionals
- Once you have been inspired by these different Routes you will get to work on a project set by a STEM company to look further at a career area that interests you.

When is it?

- This course will run during the period 2 October 2023 – 2 August 2024 and students can join anytime and can complete flexibly within this time.

WORK EXPERIENCE

The Civil Aviation Authority

The CAA are delighted to be continuing their fantastic Virtual Work Experience offering for 2024! With the changing ways of working it's important to take stock and keep moving forward. There's a great deal of excitement about innovation and the future of aviation, and it's important that progression is made so they become a reality.

Thousands of young people from across the UK will have the opportunity to gain an incredibly invaluable insight into the industry through a live virtual work experience programme. They'll get to grips with the variety of roles available in multiple areas of the regulator, as well as take part in engaging activities and live webinars with industry experts that'll get their careers off the ground and onto a flying start.

The present and the future is an exciting time for the industry – allowing future generations to see what's out there will allow the dreams of today to take positive steps to become the reality of the future. May I kindly ask you to share this with your colleagues, friends and relevant networks, registration is open now: [STEM | Work experience at CAA - STEM](#)

UCAS announces new initiatives to encourage students from low-income families to apply for University

A new package of support targeting students who might disregard university as an option for them, because of initial financial barriers or because they believe they will not achieve the entry requirements published by universities, has been announced today by UCAS. Read the article [HERE](#).
