Our Hope for a Flourishing Schools System:

Deeply Christian,
Serving the
Common Good

All Flourishing

“They are consistently well taught and are empowered to pursue academic excellence, recognising and embracing learning opportunities that are meaningful and worthwhile. Such learning does lead to strong performance in external assessments. However, they do not emerge from school simply with a list of qualifications, but rather move on from school with an expansive vision.”

When parents are involved in their education, children do better on a wide range of measures...

These positive effects include:

- **Better behaviour**
- **More confidence and greater self-esteem**
- **Higher attendance rates**
- **More enthusiasm about learning**
- **Better results**

VISION – *the ability to see beyond your current reality....*

Where is all this leading

?

“Good schools open up horizons of hope and aspiration, and guide pupils into ways of fulfilling them.”

Effort

No substitution for hard work!

- Measure effort in hours of independent study a week.
- Top performing GCSE students are doing 15+ hours a week at home (2 hours a night and 5 hours at the weekend)
- Lowest performing are doing less than 3 hours a week.

SYSTEMS (Organisation)

In an age of digital distractions, parents and guardians can aid their child's revision by creating a calm, distraction-free environment.

Multiple studies have shown that the mere presence of a phone can cause a 20% decline in performance – even if students don't use it.

Current research suggests listening to music does not always help as adverts are a distraction!

“They are surrounded by loving relationships, structures and systems which release and enable ‘life in all its fullness’.”
